Professional Summary

Aspiring Machine Learning and Data Science professional with hands-on experience in data preprocessing, exploratory data analysis, feature engineering, and predictive modeling. Proficient in Python and machine learning frameworks, with the ability to translate complex datasets into actionable insights through real-world projects and data-driven solutions.

Education

B.Tech in Information Technology, JIS College of Engineering, Kalyani 2023 – 2027

Higher Secondary (Class XII), DAV Public School, Asansol 2022 – 2023

Percentage: 70.5%

Secondary (Class X), DAV Public School, Asansol 2020 – 2021

Percentage: 89%

Experience

Fresher

Projects

- **AES-RSA Based Secure Chatting System:** Developed a secure messaging application implementing hybrid encryption using AES and RSA algorithms to enable end-to-end encrypted communication.
- **Pharmacy Demand & Expiry Forecasting System:** Built a machine learning system to predict pharmacy product demand and expiry dates, optimizing inventory management and reducing wastage.

Technical Skills

Languages: Python, HTML, CSS, JavaScript

Frameworks & Libraries: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, PyTorch, TensorFlow, React, Node.js, Express, Flask, Tailwind CSS

Databases: MySQL, MongoDB, Oracle SQL

Tools: Git, GitHub, Anaconda, Replit, Power BI

Soft Skills

Organized, Active Listener, Public Speaking, Adaptable, Curious Learner

Hobbies & Interests

Exploring Tech & Spirituality, Football, Gaming
